This book includes most of the varieties which we grow, but if you do not see what you want, please ask us, as we have other varieties and sizes than those listed. The prices given are at the nursery. Where a considerable number of trees and shrubs are required, we shall be glad to quote special prices.

We especially urge that you visit the nursery. You may select specimens you desire at an additional charge of 25 per cent. There is a cash and carry salesyard, too, for your convenience.

WE EMPLOY NO AGENTS—Our business comes to us through satisfied customers. Our nursery consists of 200 acres of well drained land, especially adapted for nursery purposes, with a complete equipment of warehouses and irrigation system enabling us to grow the highest quality of stock.

No claims will be honored unless made within 10 days after purchase of stock.

There is **NO GUARANTEE** expressed or implied, as to life, description, quality or productiveness of stock we sell. Our total liability for any errors, should stock prove untrue to name, shall be limited to our replacing free or refunding purchase price. The purchaser may subject the material to exposure before planting, plant improperly, or not advise their customer in the proper watering and cultivation. Our plant material is fresh dug, and in good condition when sold, and the success or failure of loss is in the hands of the planter or their customer.
